

How to Manage iPod Music, Video, Movie without iTunes?

If you want to manage iPod music, manage iPod video or manage iPod movie from iPod to computer, computer to iPod or iPod to iPod, I recommend you a first-rank software – Aiseesoft iPod Transfer. It is designed to backup the files on your iPod to the local disk, import files to iPod without iTunes and transfer between different iPod. You can download it from here: [iPod Transfer for Windows](#) and [iPod Computer Transfer for Mac](#).

- 1 Download and install Aiseesoft iPod Transfer
- 2 Connect iPod to computer

3 Click "iPod to iPod" button!

Select music, video or movie files that you need to manage. Just click "iPod to iPod" button and it will show you the folder of another iPod that you want to transfer to. Click OK. The transfer can be finished automatically.

Computer to iPod Transfer and iPod to Computer Transfer are also very easy to use.
